

Is Your Ground System
Too Complex?
Too Expensive?
Too Hard to Use?

AMMOS offers an
Easy-to-install
Easy-to-operate
Suite of tools for
Creating uplink packages

Ideal for missions with
Simple spacecraft
Small budgets
Novice operators
Operating
In deep space
At the Moon
At Lagrange points

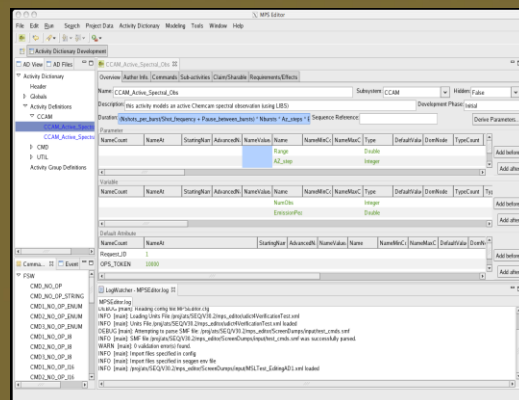

AMMOS Basic Sequencing Solution

A Software Suite for Commanding Small Missions

This suite enables

- Smart command and sequence editing
- Command translation
- Process automation
